

# SECURE COURIER

## The A to B of data security

We know the importance and legal obligation of keeping your data as safe in transit as it is in our storage facilities. You want your data delivered safely to the right person exactly when it's required – and our Secure Courier Service does exactly that.

**CONFIDENTIAL**

# SECURE COURIER

With a UK-wide infrastructure of sites and utilising a fleet of highly discreet vehicles, driven by security cleared staff, the DRS Secure Courier Service employs the same anonymous approach adopted by the rest of DRS.

Each consignment is carefully recorded and tracked from collection to destination. Furthermore all DRS vehicles are continuously monitored using the latest GPRS satellite tracking technology. Therefore, we know precisely where our vehicles are at all times.

And that's not all; as a customer you can securely track your consignment using a mobile phone or web connection. DRS Secure Consignment Track will also estimate the delivery time.

## Fleet

- \* Unmarked Vehicles
- \* Deadlocked
- \* Satellite Tracked
- \* Double Skinned

## Staff

- \* Security Clearance
- \* Driver License Checking
- \* All permanent staff – no temps

## Vehicle Safes

- \* The consignment is placed inside a secure lockable safe while in transit

## Secure Transit Cases

- \* Storm Cases – afford protection to media while in transit
- \* Combination Locks
- \* Tamper Evident Seals
- \* Double-Manned Vehicles
- \* The vehicle and consignment is never left unattended while in transit

## 'Point-to-Point' Delivery

- \* The consignment is transported 'same-day' directly from the collection point to the destination and the run is not shared by any other consignments.

## Consignment Tracking

- \* Allows you to track your consignment in real time – you know where it is and when you will get it

## Air Transportation

- \* DRS is able to provide transportation by privately chartered aircraft for highly secure, time critical data moves, where road transport would prove too slow.
